WHOLESALE PRICE LIST

for

1932-1933

TERMS OF SALE

TERMS OF PAYMENT—Prices listed here are based on cash payment. Cash with order for immediate shipment. Booking orders will be accepted when accompanied by remittance covering 25% of purchase amount; the balance to be payable at time shipments demanded. Shipment may be made C. O. D. for balance when one-fourth of the amount of purchase paid with the order. Be sure to include sufficient amount to cover the postage, if you want shipment made by parcel post.

PACKING CHARGES—Are extra at cost for Specimens (B. & B., Stock). Free of charge for Lining Out Stock .

CAR-LOAD SHIPMENTS—Unusual attractive quotations will be offered on B. & B. stock for carload orders; special discount may be allowed also for B. & B. Stock delivered at our nursery grounds without boxing.

PRICES APPLIED—5 and 50 of same variety and same size at 10 and 100 rates respectively; make application for 1000 rate. No order of lining out stock less than 5 in same variety and size accepted.

TRANSPORTATION—State whether order is to be shipped by parcel post, express or freight. When no instructions are given, shipment will be made, using our best judgment. Our responsibility ceases upon delivery to forwarding companies; claims for losses or damages must be made upon the latter.

ALL QUOTATIONS are for immediate acceptance, subject to stock being sold. We shall not be subject to any liability should injury befall stock from freeze, fire or any other cause beyond our control.

WE GUARANTEE all stock sent out to be well grown, healthy, true to name and properly packed. Our liability under the foregoing guaranty is limited in amount to original price received.

CLAIM—If, by any possibility, errors should occur, they will be promptly rectified, if claim is made immediately after the receipt of goods.

REMARKS—Prices listed here are for 10 and 100 rates for Lining Out stock and each for Specimens. Attractive low prices for larger quantities on application.

Lining Out Stock listed here by slender type letters.

(C) indicates "from Cutting", (S) Seedling and (G) Grafting. (T) indicates once transplanted, (TT) twice transplanted, etc. All Lining Out Stock are in bare-roots understood, unless otherwise mentioned.

SPECIMEN STOCK—Listed by bold type letters... B. & B. means balled and burlapped. For carload orders or for specimen orders delivered at the field without boxing to your truck special prices most attractive will be offered.

We have several thousands of very large sized splendid specimens, but not listed here. Glad to offer you unusual bargain prices upon your request.

18-24 inch B&B35	
2-3 feet B&B50	
3-4 feet B&B90	

JUNIPERUS COMMUNIS COLUMNALIS STRICTA

Strictly columnar, just like Royal Italian Cypress. The plant in height of 6-7 feet has only 8-10 inches of diameter in its width without receiving any shearing. Very compact growth with silverly green foliage. The original plant selected by us years ago, out of many thousands of seedlings. We believe this is narrowest columnar juniper of the English type.

4-6 inch C. T.	1.00	8.00

THUJA ORIENTALIS COLUMNALIS STRICTA

Originated by us. Much narrower than Bakers and decidedly columnar growth with very compact branchlets. This is indeed an ideal plant we have been looking for many years to take place of Italian Cypress which does not thrive on some soil. This is first year we offer in the market. Limited supply, book order early.

AZALEA (Two new Azaleas Introduced by Us)

GULF PRIDE

A sport of Indica Alba (Ledifolia Alba). Flower medium to large, straight petals of most charming light purple color, could never be seen in other varieties, with four or five flowers clustered like Rhododendron. It blooms at mid-season. Leaves broad and thick, dull green covered with hairy secretion. Rather upright and open growth unless well pinched. Very hardy and stands against cold better than any other Indica varieties.

VIOLA

A sport of Indica Rosea (Ledifolia Rosea) Character of parent tree faithfully inherited, but the color of the flower that is admirable violet mauve. Very hardy and vigorous grower.

Prices of the above two new Azaleas

4-6 inch C. T.	\$1.50	\$12.00
4-6 inch, 2½ inch pots	1.75	15.00
6-8 inch C. TT., bushy	4.00	35.00
8-10 inch C. TTT., bushy	6.00	50.00

AZALEA INDICA

PINK AND ROSE RED FLOWERS

BRILLIANT—Bright water-melon red, flower medium, mid-season, small leaves, compact growth.

CROEMINA—Shell pink, large flower, earliest bloomer and very rapid grower, but not compact.

GEORGE FRANC—Flame pink with deep carmine spot near the throat, large flower, early.

HARRY VEITCHII—Beautiful pink, large flower with waved petals. Mid to late season. Rather slow grower.

MAXWELL—Carmine red, mid-season, very hardy.

PERFECTION—Rose pink, large flower, mid-season.

PRAESTANTISSIMA—Carmine red, blooms a week earlier than Pride of Dorking.

PRIDE OF MOBILE—Lovely watermelon pink. Flower very large, mid-season. Large leaves, very vigorous grower. One of best Indica Azaleas.

PRIDE OF DORKING—Beautiful series of carmine, late, compact low grower.

ORANGE RED

COCCINEA MAJOR—Brilliant scarlet, early season, small leaves.

DAPHNE RED—Orange red, with purple spot on the throat. Flower medium, very early, semi-weeping nature.

GLORY OF SUNNINGHILL—Large orange scarlet flower, late, compact grower.

MOSS POINT RED—Orange red with purple spots at the throat, mid-to-late season.

PRESIDENT CLAY—Orange red with purple spot at the throat. Bloom early.

STRAWBERRY RED—Red flower, early, slender, semi-weeping nature.

SALMON

DAPHNE SALMON—Medium flower with light salmon, early

DUC DE ROHAN—Medium size flower of lovely salmon pink. bloom early, leaves small, shiny green, compact.

DUKE OF WELLINGTON—Soft salmon, with darker center, mid-season.

MOSS POINT LATE SALMON—Pretty salmon color, very large flower with widely waved petals. Very late, hardy vigorous grower.

WILLIAM BULL—Double flower of mud-red color, late, exceedingly vigorous and upright grower.

LAVENDER-LILAC

FORMOSA—Large lavender flower, mid-season, large leaves, most vigorous grower.

OMURASAKI—Large, dark lavender flower, hardy, mid-season

ORCHID LAVENDER—Medium flower of light orchid lavender pink, very early, upright growth.

PHOENICIA—Lavender pink, mid-season, low and compact.

ROSY PURPUREA—Wine-red color. Late blooming.

VITATA FORTUNEI PURPLEANA—Separated from variegated kind, fine lavender pink, very early, upright open growth.

WHITE

FIELDERS WHITE—Large white flower, early.

FLAG OF TRUCE—Mid-season, full double with waved petals.

INDICA ALBA—(Ledifolia Alba) Snow white large flower, early to middle season, very hardy.

LATERETIA ALBA—Medium size pure white flower, late small leaves, very compact growth.

VARIEGATED

CRITERION—White ground well marked with wide pink stripes, late, compact.

INDICA ROSEA—(Ledifolia Rosea) Extra large flower of white with rose throat. Mid-season, upright.

IVERLANA—White ground marked with narrow, faint pink stripes, late, compact.

LADY EDITH—Variegated just like Criterion, but the flower slightly smaller and color of pink softer. Mid-season, compact.

VITATA FORTUNEI—White ground well striped with lavender pink. Very early. Upright, open grower.

CAMELLIA JAPONICA

Plants offered here are all pot-grown, as we have found it is far superior to the plants from the ground and poorly balled and burlaped. . Plants from pots can also be safely removed any time of the year.

Group No. 1.

ABBY WILDER, PINK—Very double peony-form. Generally pink but sometimes marked with white. (Abby Wilder generally pink and white variegated. This strain must be propagated from pink branch).

CHANDLERII ELEGANS—Semi-double to double, flower very large, pink variegated with white, somewhat peony form mixed with yellow stamens.

COUNTES OF ORKNEY—Very double, pink striped on white ground. Slow grower but it blooms very young and small. Best for pot culture.

DUC DE BRETOGNE—Very double, pretty rose, lighter color toward center. Slow but very compact grower.

HERME—Semi-double, very large flower variegated pink with white generally white margin of the petals.

LADY HUME'S BLUSH—Medium size flower very double and delicate flesh pink.

OTOME—Very much alike to Pink Perfection. Only flower slightly larger so with petals. Blooms later than Pink Perfection.

PROF. CARGENT—Very full double, peony form, dark red.

REINE DE FLAURES—Rich vermilion red flaked with white

Group No. 2

ALBA PLENO—Large flower, very double, pure white, early. Best white.

AMERICANA—Soft pink striped with crimson.

ANNA FROST—Large, semi-double, pink color like American Beauty Rose.

ARNALDA DE BRESEIA—Double, deep pink, with strips of white in center of the petals.

BROOKLYANA—Very double, medium size flower, deep pink mottled with white.

CALEB COPE—Double deep flesh pink.

CANDIDISSIMA—Medium flower, pure white, small petals wrapped each other symmetrically forming star shape. Late bloomer.

CHEERFULNESS—Double, bright pink, medium size, early bloomer.

DERBEYANA—Semi-double to double, dark red or vermillion red, large flower with large petals. Yellow stamens mixed.

GUILBEAU'S PINK—Large, semi-double to double, Rose pink, shape of the flower resembles to Herme.

LADY SAUMEREZ—Semi-double, cherry-red, early bloomer.

LADY VANSITTI—Semi-double, large flower, most desirable color of red.

MADONA—Double flower, flesh color, some times spotted with darker color.

MM. PICOULINE—Crimpled petals or peony form, bright red.

MATHOTIANA ALBA—Flower very large of shape like cup on saucer. Pure white but sometimes striped with slight pink, late bloomer.

MARGUERITE GOUILLON—(Duke de Orleans) Peony form, creamy white, ground flaked and dotted with rosy pink.

OPELOUSAS' PEONY—Large peony-form. Light pink occasionally spotted with white.

PINK PERFECTION—Very popular variety, flower medium, very full double with immense small petals symmetrically arranged. Lovely shell pink, early and free bloomer.

PRESTON ROSE—Flower medium, full double, peony-form, pretty pink, occasionally with a little white spots.

PURITY—Pure white, double, but rather open center, easy to cultivate.

SACCO—Medium flower, bright rose pink.

TWO WILD SAGES, With

Being Believed by Us the B

RED SAGE

(*Clinopodium Coccineum*)

This is one of the most prospective native plants of South Alabama. It grows in poorest sandy or rocky soil. A slender, sparingly branched shrub of two or three feet tall with small evergreen leaves and horizontal, tubular, bright red flower blooming all the summer and the fall until just before Christmas, especially at autumn, even young plant of a few inches, covered with mass of red flowers. In addition to its attractive appearance, it has pleasant odor which might possibly be utilized in perfumery. No cold spell ever injured this plant down here, it may stand near zero weather, probably lower. No doubt this is one of most suitable plants for Southern rock garden, also it will be very valuable pot plant.

Special Trial Offer.

25 plants 8-10 inch (collect) for _____\$2.00
(Large quantity upon application)

Prospect of a Great Future

of Our New Introductions

BLUE SAGE

(*Conradina Canescens*)

A low, dense, compact shrub, with small narrow, beautiful silver colored evergreen leaves. The flower resembles very much to Rosemary, pale bluish blossoms from early summer to late fall. It thrives on dry, poor soil. It is indeed a suitable plant for rock garden also border planting, as well as pot plant.
